F//LINE 33
DESIGNED WITH ADVENTURE IN MIND

STORIES START HERE

For over 50 years we've brought a variety of different designs to the sea. Elegant designs, classic designs, luxurious designs. However, with the F//LINE 33 we're bringing a fresh new design unlike anything the yachting world has seen before.

A sleek design. An exhilarating design. A design that effortlessly helps you escape the trappings of the land in seconds, whilst giving you the power to explore the wonder of the sea for hours in uncompromising comfort.

Prepare for adventure like never before.
Prepare for the new F//LINE 33.

UNLIMITED POWER MEETS UNPRECEDENTED PRECISION

When the world-famous yacht designer Alberto Mancini drew the very first hand drawn sketch of our new F//LINE 33, he understood that power means nothing without the ability to control it.

That's why along with sleek, elegant and attractive styling, that's guaranteed to turn heads, the F//LINE 33 also boasts twin V8 engines specifically selected for their outstanding performance and ability to ensure you can enjoy the thrill of the journey, with the lightest of touches.

So, whether you're racing gracefully along the coast, or enjoying a leisurely cruise to your favourite lunch spot, you can do it in effortless style.

THE INSPIRATION BEHIND THE NEW COCKPIT LAYOUT? YOU

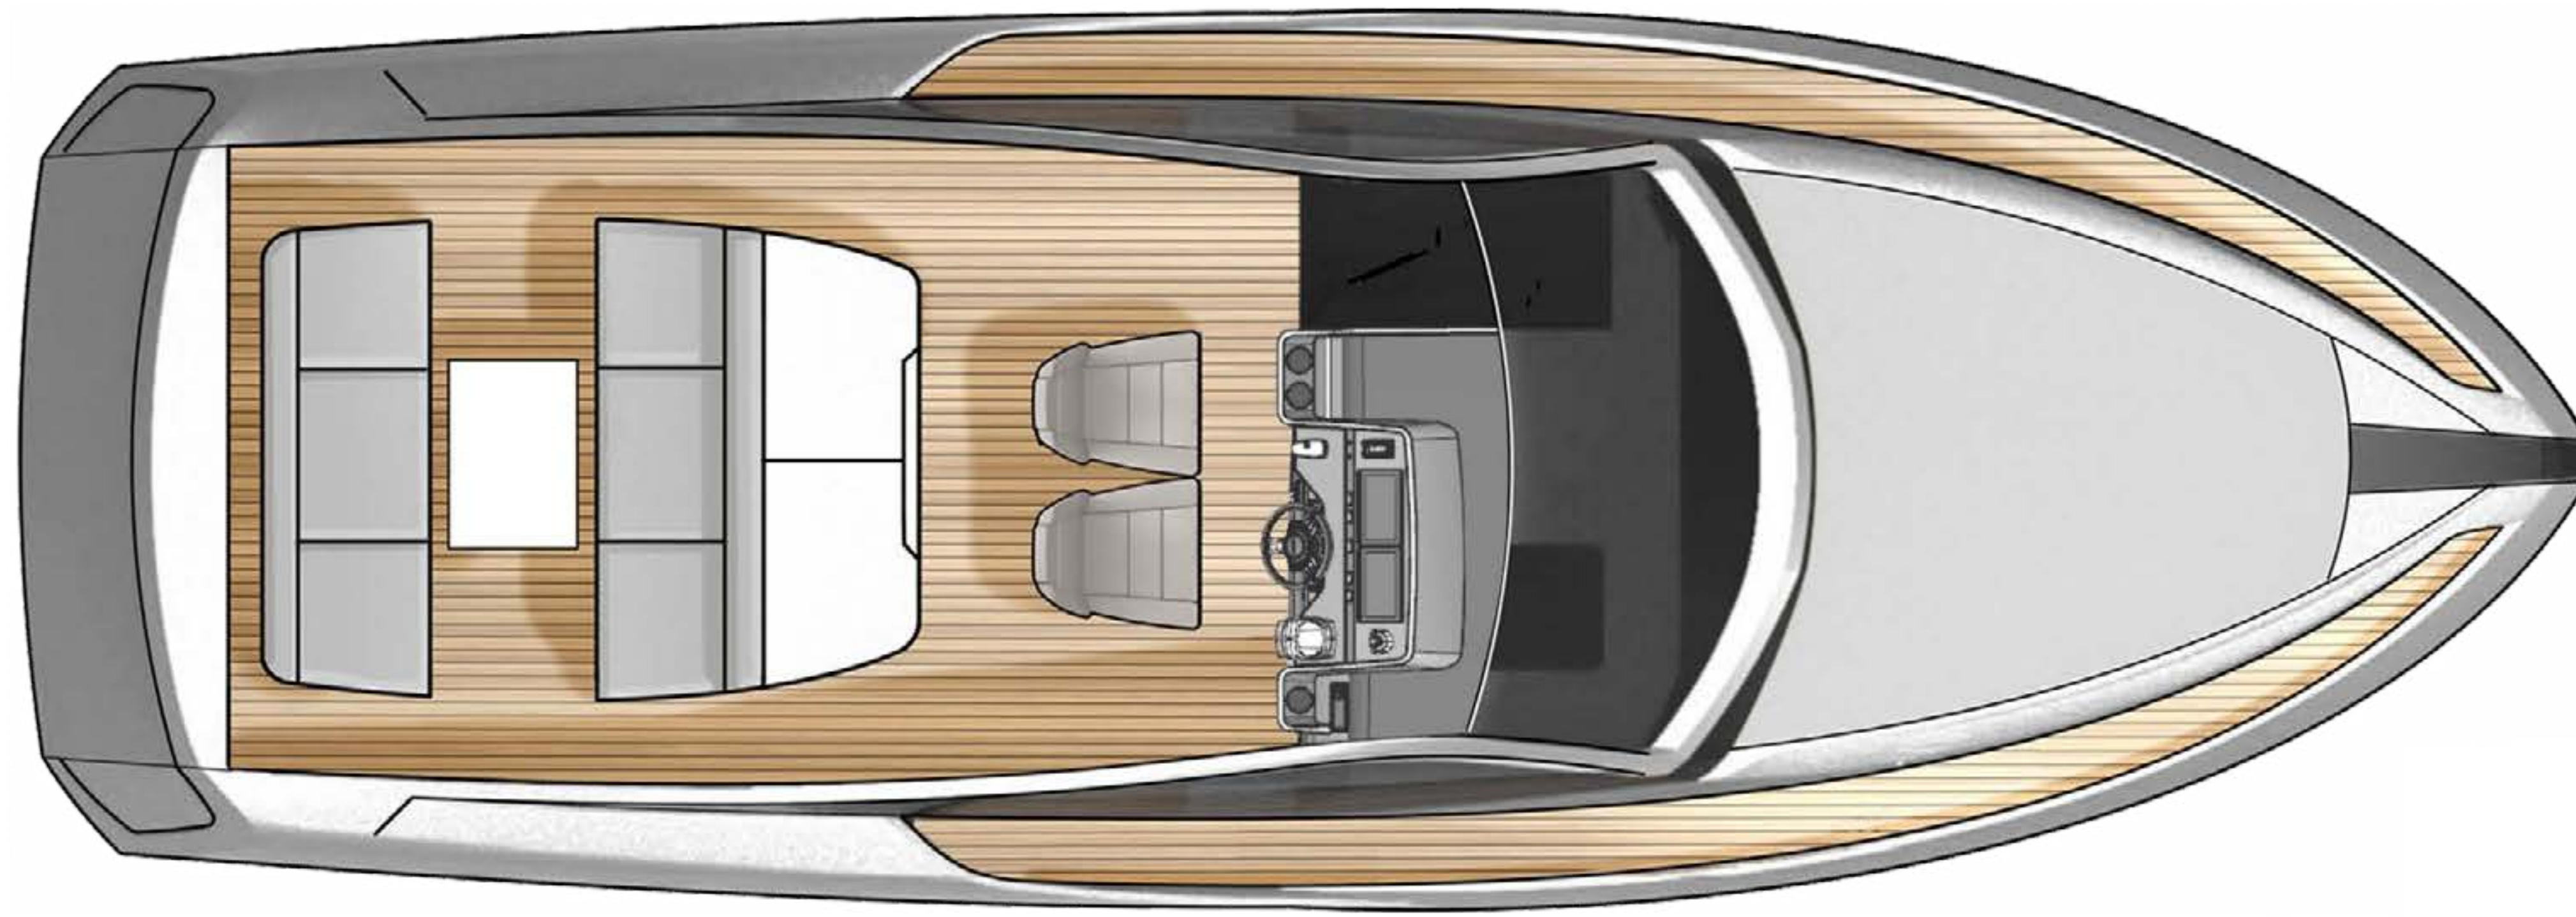

Whilst others would have sat back and admired the original F//LINE 33's layout, we kept searching in the pursuit of perfection. We kept asking, how can we make it even better? The answer, unsurprisingly, came from those who use it most; you. As a result, we've redesigned the cockpit to offer seating and sunbathing simultaneously and added an optional sleek and stylish hardtop.

So, whether you choose the inboard, or outboard motor option, you'll be ready to take on your next adventure in perfect comfort.

Twin Volvo Penta V8-430 petrol, sterndrive (860hp) 48 knots

HARDTOP

A NEW OUTBOARD FOR OUTSTANDING VERSATILITY

Along with the excellent low speed maneuverability you'd expect, our new F//LINE 33 Outboard option connects you to the water like never before.

To truly maximise every millimeter of additional space, our new innovative 'Ascender' bathing platform elegantly wraps around the powerful twin Mercury Verado engines giving you extra steps on both sides. So, when you finally choose to slow down, you can gracefully glide into the blue in one effortless motion.

What's more, when you're finally ready to head back in, the platform rises perfectly up to the level of the quayside so you step back onto dry land in style.
